## Division - Traditional Long Division Algorithm Method <br> Word Problems with Single Digit Divisors <br> (4.NBT.B.6)

Directions: Solve the following using the traditional method. Multiply to check your work.
(1) Emma has a book with 245 Sudoku puzzles in it. If she completes 7 puzzles every day, how long will it take her to complete the book?
(2) Clara wants to buy a new skateboard that costs one hundred ninety-two dollars. She makes 3 dollars per day by recycling bottles and cans. How many days will it take for Clara to save enough money to buy the skateboard?
